DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1, 3-6, and 7-8, drawn to a method of processing having exposure and color balance adjustment means comprising adjusting the exposure and color balance settings for one field based on luminance of a preceding field, classified in class 348, subclass 362.
 - II. Claim 2, drawn to a method or processing having exposure and color balance adjustment means comprising adjusting exposure setting on alternate fields and adjusting color balance for each field based on the exposure setting for that field, classified in class 348, subclass 223.1.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions disclose adjusting exposure and color balance setting for one field based on the luminance of a preceding field, and adjusting exposure settings on alternate field of video so that

one field targets objects in dark areas of the image and alternate field targets objects in bright areas of the image.

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
